

CURRENT LIST of MEDICAL LITERATURE

Vol. 7

Oct. 27, 1944

No. 17

SUBJECT GROUPS ACCORDING TO JOURNALS

- | | |
|--------------------------------------|---------------------------------------|
| 1. Anatomy; Histology | 26. Infectious Diseases; Epidemiology |
| 2. Anthropology; Ethnology | 27. Medicine |
| 3. Archeology; Paleontology | 28. Metabolism |
| 4. Aviation Medicine | 29. Military and Naval Medicine |
| 5. Bacteriology; Parasitology | 30. Miscellaneous |
| 6. Biology; Embryology. | 31. Neurology; Psychiatry |
| 7. Bone; Joint; Extremities; Muscle | 32. Nursing |
| 8. Cancerology | 33. Ophthalmology |
| 9. Cardiovascular System | 34. Otorhinolaryngology; Phoniatry |
| 10. Chemistry; Physics | 35. Pathology |
| 11. Dentistry; Stomatology | 36. Pediatrics; Child Welfare |
| 12. Dermatology | 37. Pharmacology; Pharmacy |
| 13. Diagnosis; Clinical Methods | 38. Physiology |
| 14. Dietetics; Foods; Nutrition | 39. Psychology; Mental Hygiene |
| 15. Digestive System | 40. Public Health; Sanitation |
| 16. Endocrinology | 41. Radiology; Phototherapy |
| 17. Forensic Medicine; Toxicology | 42. Respiratory System |
| 18. Genetics; Eugenics | 43. Surgery; Traumatology |
| 19. Gynecology; Obstetrics | 44. Therapeutics |
| 20. Hematology | 45. Tropical Medicine |
| 21. History; Biography; Bibliography | 46. Tuberculosis |
| 22. Homeopathy; Osteopathy, etc. | 47. Urology |
| 23. Hospitals | 48. Venereal Diseases; Sexology |
| 24. Immunology; Serology | 49. Veterinary Medicine |
| 25. Industrial Hygiene; Sociology | 50. Zoology |

I. Anatomy; Histology

Bull. histol. appl., Lyon, 1943, 20:
(Jan. - Sept.)

- LEFORTOIS, M. Contribution à l'étude théorique et pratique du rapport nucléo-plasmique utilise comme test de l'activité glandulaire en endocrinologie. 5-18.
- THOMAS, J. A. Technique de coloration des fibrilles collagènes du tissu osseux par l'hématoxyline phospholydique au dioxane; coloration des gaines limitantes des ostéoplastes. 19-23.
- BENOIT, J., & CLAVERT, J. Etude histologique de l'ossification folliculaire chez les oiseaux. 25-42.
- QUINCHET, M. A propos du type nucléaire de *Zea mays* et de *Helianthus annuus*. 43-5.
- BOURDON, H. Nouveau procédé d'inclusion par les résines polyvinylées. 46-8.
- THOMAS, J. A. L'hématoxyline phospholydique au dioxane, colorante électif rapide des structures collagènes et réticulaires. 49-58.
- MOUSTY, J., & BOURDON, P. Sur l'existence d'un cycle évolutif du chondrome des cellules déciduales du rat blanc. 59-62.
- GLUCKMANN, F. Sur une méthode de détection rapide, à chaud, des cellules argentaffines (adrenales) de l'intestin. 63.
- LECAM, F. Sur le mécanisme du passage intravasculaire de cellules hépatiques dans le foie des Carnivores. 65-8, pl.
- MOUSTY, J., & BARRY, J. Au sujet des capacités et de la polarité sécrétrice des cellules argentaffines. 69.
- POLIGARD, A. De quelques données histophysiologiques récentes sur le lobule pulmonaire. 71-80.
- PALADE, G. Le rein et le tube urinaire du Dauphin. 81-103, 4 pl.
- WOLL, R. Telo-plasme, telosomes et zones de jonction myo-neurales. 105-14.
- TUORMANN-DUPLESSIS, A. Variations structurales de l'hypophyse du Triton et leurs rapports avec l'évolution sexuelle cyclique. 115-26.
- LACOSTE, A., AUHERTIN, E., & LACHAUD, R. DE. Documents histophysiologiques concernant la traversée rénale des pigments biliaires. 127-35.
- BOISSEZON, P. DE. Les appareils de réglage de la circulation du corpuscule carotidien. 136-150, incl. 5 pl.
- TURCHINI, J., & BROUSSY, J. Cellule hépatique et injections de polypeptides urinaires; sur le comportement de l'appareil de Golgi, critères de l'activité fonctionnelle cellulaire. 151-8.
- LACOSTE, A., & LACHAUD, R. DE. Préparation et utilisation d'un nouveau milieu de montage d'observation et de conservation des coupes histologiques avec ou sans lamelles. 159.
- COUJARD, R. Essais sur la signification chimique de quelques méthodes histologiques (réactions phenoliques, colorations nerveuses et mitochondriales). 161; passim.

5. Bacteriology; Parasitology

J. Bact., Balt., 1944, 48: (Aug.)

- DIENES, L., & SMITH, W. E. The significance of pleomorphism in Bacteroides strains. 125-23, incl. 5 pl.

- FELSENFEI, C. The lecithinase activity of *Vibrio comma* and the *El Tor* vibrio. 155-7.
- NAGRSKI, J., WHITE, J. W., JR., & HOOVER, S. R. Aerobic decomposition of guayule shrub (*Parthenium argentatum* Gray). 159-78.
- SCHADE, A. L., & CAROLINE, L. The preparation of a polyvalent dysentery bacteriophage in a dry and stable form; factors affecting the stabilization of dysentery bacteriophage during lyophilization. 179-90.
- BELLAMY, W. D., & GUNSALES, I. C. Tyrosine decarboxylation by streptococci; growth requirements for active cell production. 191-9.
- STOKES, J. L. Substitution of thymine for follic acid in the nutrition of lactic acid bacteria. 201-9.
- SANBORN, J. R. Slime-producing coliform and coliform-like bacteria. 211-7.
- HAAS, H. F., & ROSENWELL, L. D. The production of carotenoid pigments from mineral oil by bacteria. 219-31.
- REED, G. B., ORR, J. H., & REED, R. W. In vitro action of sulfonamides on clostridia; sulfonamide inhibitors. 233-42.
- SCHADE, A. L., & CAROLINE, L. The preparation of a polyvalent dysentery bacteriophage in a dry and stable form; stability of the dried bacteriophage towards heat, humidity, age and acidity. 243-51.
- MEYER, E., & WILL, D. W. Effects of penicillin on streptococcal fibrinolysis. 253.
- NELSON, E. A. A report on gonorrheal culture methods as used in the Detroit Department of Health Laboratories. 255.
- DARBY, C. W., & KONDE, W. N. Rapid bacteriological identification of *Salmonella* pullorum. 255.
- PORTWOOD, L. Observations of the failure of sterility test media to support the growth of laboratory contaminants. 255.
- SCHLEIMMAN, A. S., & GRATHWOHL, G. In vitro potency test of pertussis antitoxin by the egg-yolk method. 256.
- KENNEDY, P., THOMPSON, M., & ELDERING, G. Immunity response to pertussis vaccine in mothers and their babies following vaccine injections during pregnancy. 257.
- FUGAZZATTO, P. Complement fixing antibodies in non-immunized guinea pigs and their significance in pertussis complement fixation tests. 257.
- LURIE, M. B., TOMLINSON, H., & ABRAMSON, S. The prevention of natural air-borne contagion of tuberculosis in rabbits by ultraviolet irradiation. 257.
- HEINLE, W., & HEINLE, G. Interference of inactive influenza viruses with the propagation of the active agent. 258.
- REIMANN, H. A., HODGES, J. H., & PRICE, A. H. Epidemic nausea, vomiting, and diarrhea possible caused by an enterotropic virus. 259.
- BLUMENFELD, G. P., BEAMER, W. D., & CROUCH, R. W. Bacteriological findings in gastrointestinal disturbances occurring during the winter months. 259.
- WYSS, O. Acetylmethylcarbinol and acid production by *Aerobacter*. 259.
- FOSTER, J. W., & KAROW, E. O. The production of penicillin by various fungi. 260.
- JOHNSON, F. H., & LEWIN, I. The action of quinine on dehydrogenase systems of *Escherichia coli*. 260.
- SCHERP, H. W., & TUTTLE, D. M. The carbon dioxide requirements of the meningococcus. 260.
- MEYER, E., & WILL, D. The effects of penicillin, clavulin, and streptomycin on tetanus toxin. 261.

- NETER, E., & CLARK, P. The effects of penicillin on *Staphylococcus bacteriophage*. 261.
- GUNSAUS, I. G. Butylene glycol production by the so-called Ford strain of *Bacillus subtilis*. 261.
- HAYNES, W. C., & HUCKER, G. J. The food poisoning micrococci. 262.
